

# **Example mobile friendly pdf**

*-UC COE on UAS Safety*

## **Style Template**

Use 2.5"x4" paper in portrait orientation and set margins to 0.1"

## **Text Size**

Use text sizes between 12-16

It will be a lot of pages, but it will be readable and easy to scroll through.

## **Portability**

Save it as a pdf to ensure that students can download it and use it in the field where internet access may not be available.

## **Making It Work**

It's going to be a bit of a challenge to put a lot of information in this shape. Try to simplify as much as possible.
